Your gut. Your brain. Your heart. Did you know that all three are interconnected and vital to your mental wellness?

We know that an optimized gut-brain axis helps improve mood, supports mental sharpness and enhances stress resilience. We've now discovered that our third brain, the heart, also has an important role in our mental wellness. We know that the heart-brain axis, as it's referred to, helps improve the efficiency of our heart, and as a result, can improve our mental health. With the heart-brain axis working together, our mental wellness is optimized, and our overall emotional well-being is enhanced.*

Our three brains: gut (sensing brain), mind/brain (thinking brain) and heart (feeling brain) determine our emotions and are the most powerful tools in optimizing our overall mental wellness. Think of your gut as the intuition and instinct resource. The head is the logical and analytical source. And finally, the heart as the emotional, passionate and artistic approach to your well-being. When in sync, these three brains balance your mental wellness.*

That's why we created the **Amare FundaMentals Pack[®] PLUS**. Designed to support all three brains, this special Pack is designed to support the primary physiological drivers of mental wellness. This exclusive Amare Pack includes **MentaBiotics[®]**, **MentaFocus[®]**, **MentaSync[®]** and **MentaHeart[™]**. MentaBiotics includes the most comprehensive combination of unique strains of probiotics, prebiotics and phytobiotics that have been scientifically shown to improve mental wellness. MentaFocus supercharges your brain with key phytonutrients clinically shown to support focus, mental sharpness, clarity, creativity and cognitive functioning. MentaSync's clinically studied key ingredients optimize the synchronization of chemical messengers between your brain and your gut. And MentaHeart features key ingredients backed by multiple clinical studies shown to help optimize the heart, the body's third brain. The products included in this Pack provide comprehensive nutrition for all three brains — helping you achieve greater mental wellness.

DID YOU KNOW WE HAVE THREE BRAINS?

**YOUR GUT.
YOUR BRAIN.
YOUR HEART.**

Did you know that all three are interconnected and vital to your mental wellness?

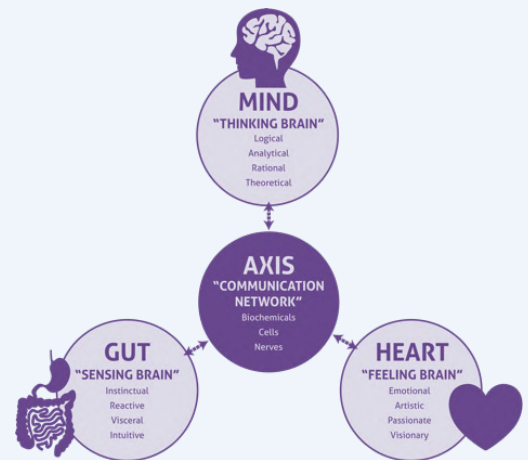

We know that an optimized gut-brain axis helps improve mood, supports mental sharpness and enhances stress resilience. We've now discovered that our third brain, the heart, also has an important role in our mental wellness.*

Targeting Mental Wellness Through the Body's Three Brains

Our three brains: gut (sensing brain), mind/brain (thinking brain) and heart (feeling brain) determine our emotions and are the most powerful tools in optimizing our overall mental wellness.

Think of your gut as the intuition and instinct resource. The head is the logical and analytical source. And finally, the heart as the emotional, passionate and artistic approach to your well-being. When in sync, these three brains balance your mental wellness.*
